

Implementing a Local and Regional Voice

It is proposed each region would be guided by the principles-based framework to support its set up and operation (see proposed Local and Regional Voice Principles fact sheet).

Each region's pathway to setting up their Local and Regional Voice would be different. This would depend on what arrangements already exist in the region to bring people together.

Some Local and Regional Voices would be adapted from existing arrangements. Some Local and Regional Voices would be designed as new structures. Below are some possible ways this might work.

 We want to hear your views on how a Local and Regional Voice could be implemented in your area.

 **Have your say**

You can have your say by:

- providing a submission on the proposal at voice.niaa.gov.au
- undertaking a survey at voice.niaa.gov.au
- sharing your views and ideas on social media tagging #IndigenousVoice
- holding a community discussion or go to a stakeholder meeting if it is COVID safe to do so
- sharing the materials with your family, friends and community.

 Visit voice.niaa.gov.au to provide a submission, complete the survey or learn more about the Indigenous Voice proposals.
