

Truth is people are not indigenous to Australia, native title, first nation, aboriginal and indigenous are racist and fraudulent terms, and fraud against our Commonwealth of Australia.

A commonwealth is a term for a political community founded for the [common good](#). Historically it has sometimes been synonymous with "[republic](#)". The noun "commonwealth", meaning "public welfare general good or advantage", dates from the 15th century.^[1] Originally a phrase (the common-wealth or the common wealth – echoed in the modern synonym "public wealth") it comes from the old meaning of "[wealth](#)", which is "well-being", and is itself a loose translation of the Latin [res publica](#) (republic).

Who was Mungo Man? Mungo man's forbearers and descendants are like us all immigrants.

About 42,000 years ago, Mungo Man lived around the shores of Lake Mungo with his family. A time of abundance in the Willandra Lakes system was drawing to a close, but he could still hunt many species of game, including some of the soon-to-be-extinct megafauna, leading to mass extinction.

Australia is 55,000,000 years old. Modern humans had reached Asia by 70,000 years ago before moving down through South-east Asia and into Australia. However, Homo sapiens were not the first people to inhabit this region. Homo erectus had already been in Asia for at least 1.5 million years. It is possible that these two species may have coexisted, as some dates for Indonesian Homo erectus suggest they may have survived there until as recently as 50,000 years ago.

In 2017, [a genetic study of the genomes of 111 Aboriginal Australians found](#) that today's Aboriginal Australians are all related to a common ancestor who was a member of a distinct population that emerged on the mainland about 50,000 years ago. Humans are thought to have migrated to Northern Australia from Asia using primitive boats. A current theory holds that those early migrants themselves came out of Africa about 70,000 years ago, which [would make Aboriginal Australians the oldest population of humans living outside Africa](#).
